Subject: Cloudy Moon Quarry s/037/116

I visited this quarry with Mike Murphy on July 31, 2002. He has peeled back a sandstone ledge in two locations on the lease. The ledge is two or three four feet thick. About 25 tons of rock have been hauled away and uplifted slabs of rock are scattered about the disturbed area. Total surface disturbance is about one acre, excluding access. The access road is maintained by the County.

Murphy wants to renew his lease with us for another year. We will approve if he makes payment due.
